Obsidian: What Inspired the Name?

Metaphysical Properties From Volcanic Origin

Obsidian is a natural volcanic glass that forms when molten lava rapidly cools. Known for its smooth, glassy texture and sharp edges, obsidian is often used in jewelry-making and ornamental objects due to its striking appearance. Obsidian is also sometimes used in metaphysical practices for its purported healing properties and ability to absorb negative energy.

- **Grounding and Protection**
  Obsidian is thought to have grounding properties, helping individuals feel more rooted and connected to the earth. It's also believed to provide protection from negative energies.

- **Absorbing Negative Energy**
  It's thought that obsidian can absorb and dispel negative energies, making it useful for cleansing and purifying environments or objects.

- **Emotional Healing**
  Obsidian is sometimes used in practices aimed at emotional healing and self-reflection. It's believed to help release emotional blockages, promote clarity of thought and encourage self-awareness.

- **Chakra Balancing**
  In some alternative medicine practices, obsidian is associated with specific chakras, such as the root chakra, and is used to balance or align these energy centers.

DID YOU KNOW?

Obsidian is of great historical significance as various cultures have used it for tools, weaponry and decorative objects. It was highly valued by ancient civilizations such as the Maya, Aztec and Inca, who crafted intricate items from this volcanic glass.

Frequencies for Your Life

1 The content displayed by the Digital Nutrition App ("DNA" for short*) does not constitute medical advice, which can only be provided by a medical professional. The substances, foods and Individualized Microcurrent Frequency Healy programs for harmonization of the Bioenergetic Field displayed are recommendations that depend on user input. If you have or suspect food intolerances, allergies, deficiencies or medical conditions, or if a supplement regimen has been recommended by a health practitioner, you should consult a physician or other healthcare professional before following these recommendations. "DNA" stands for "Digital Nutrition App" and should not be confused with genetic testing, which is not provided by Healy.

2 "Individualized Microcurrent Frequencies" ("IMF") is a proprietary technology of Healy World. It uses the data from a physical noise generator to assign a priority to frequencies that professional user experience indicates have the highest relevance for the user. The programs for Individualized Microcurrent Frequency (IMF) are structured in terms of duration, frequencies, intensity, naming, and descriptions, drawing upon the practical expertise of specialists and our understanding of how frequency-modulated microcurrent interacts with the Bioenergetic Field. They have not been confirmed by independent studies. The Healy Individualized Microcurrent Frequency (IMF) programs are designed to support wellbeing through harmonization of the Bioenergetic Field. We have conducted unblinded before/after surveys in controlled and randomized groups of participants. These surveys suggest that the participants' wellbeing was higher after the application. We attribute this to the harmonization of the Bioenergetic Field, which we refer to as the energy flow of life, traditionally also called chi (or qi) and prana. This has not been confirmed by independent studies.

3 The content displayed by the HealAdvisor App does not constitute medical advice, which can only be provided by a medical professional. The Individualized Microcurrent Frequency Healy programs are intended solely for harmonization of the Bioenergetic Field. If you have or suspect you may have a medical condition, or if you are under the care of a healthcare professional, you should consult your practitioner before following these recommendations. Any personal data you upload to the HealAdvisor Cloud is encrypted to protect your privacy.

Notice:
The Individualized Microcurrent Frequency (IMF) programs of the Healy device are not medical applications. They are not intended to cure, treat, mitigate, diagnose, or prevent any disease or medical condition. The terms used in the programs do not constitute statements concerning their effects. The purpose of the programs is to provide the user with a tool to explore application options. Healy programs should not be treated as a substitute for professional medical advice, diagnosis or treatment. You should always seek such advice from a qualified medical professional. If you have or suspect you may have a medical condition, or if you are under the care of a healthcare practitioner, you should consult your practitioner before using Healy. The analysis and harmonization in the Information Field is not intended to cure, treat, mitigate, diagnose or prevent any disease or medical condition. It is intended to give the user the option, in a holistic context, to derive helpful information from findings from the Information Field. Each user should determine, based on their own experience, whether the application seems to be helpful to them or not.
